

The Long Island Miniature Model Show EXHIBITION 2025

EXHIBIT REGISTRATION FORM

Please see the attached competition registration form.

INSTRUCTIONS:

Please complete **one form per category (all 3 parts*)** and enter the pieces you will have in that category.

**When you enter the information in the Form the text should automatically populate the other two parts.*

Print out each form and cut into 3 parts. One part is placed with the **Display**, one part goes to the front desk **Security**, and the **Exhibitor** keeps the last part to show when picking up their figures. Display tables are divided by category, please place your exhibits in the designated section of the table.

For each entry indicate whether your entry is a Kit, Conversion or Scratchbuilt. Generally, scratchbuilt is an entry that has a large percentage of the model(s) originally created or sculpted by the exhibitor. You can write more detail on the back of the Display form.
